PRESIDENT'S MESSAGE

Each year the calibre of football as played in our group improves and this season, we are sure our patrons will agree that we have given them a team of almost senior proportions. We trust that you will again accord us the same generous support as you have in previous seasons.

Art West, our coach, in his playing days was one of the all-time greats and we think the result of his coaching this year will brand him as one of the tops among coaches.

The Dominion final this year will be played in Winnipeg and our objective and slogan for this season is: "West with West in '52".

MAYOR'S MESSAGE

The sporting public of Cobourg are very happy to know that rumours that the Galloping Ghosts are folding up are not true and the Ghosts will operate again this year bigger and better than ever.

President Fred Dufton and his committee have been a very busy executive. Fred is not a large man physically but he has enough enthusiasm and energy for a giant. The Ghosts will also have the benefit of a booster's club organized by executive officers of the Bird-Archer Company, who have proved a wonderful addition to our community life.

Coach Art West has a very large squad out at practice and is strong in almost all positions. He really puts his men through the mill and is a stickler for condition. With the assistance of line coach Jake Edmiston he should field a team that will make live the slogan "Go West with West".

I trust the sports-minded citizens of Cobourg and district will give the team the support their efforts merit and that once again they will be Dominion champions.

" T FORMATION "

Volumes have been written on the subject T formation football. However we feel that the readers of this programme in general, will not be interested in a complicated discussion of the T. What people want to know, is its difference from the system they have been watching for years. This has been either single or double wing formation or variations of these.

The T is not really a new method of attack. It was used several years ago, both in Canada and the U. S. A. However it is only quite recently that it has come into universal usage.

In single wing play the ball is delivered to the backfielder by a direct snap from centre. As the ball travels thru the air away from the line of scrimmage, not only is it visible to the opposition but it must be carried back up to the line. Both of these operations take time and tend to give the play away. This means that lines have to hold their blocks longer to keep the hole open.

When the T formation is used the ball is merely handed from the centre to the quarter who stands immediately behind him and who when he receives the ball, pivots, thus hiding the ball from the opposition at once. What a good T quarterback does with the ball from here, makes the difference. He may hand off to a player going thru the line, fake a hand off and shovel pass to a back going wide, or fade back to pass.

In any case he continues to go thru the same motions even after he has given up the ball, and if the faking has been good, the defensive side will not know until too late who's got the button.

Best of Luck to Galloping Ghosts

Dear Lord in the battle that goes on through life,
 I ask but a field that is fair.
 A chance that is equal with all in the strife,
 And a courage to do and to dare.

 With my faith and my honour held high;
 But if I should lose let me stand by the road,
