PRINTING is usually designed to do a specific job. Whenever you are planning an important mailing piece it is imperative that you have the guidance of a thoroughly experienced craftsman. He will help you avoid errors of judgment and overcome the various technical production problems. Using his practical knowledge will enable you to produce printed material of unsurpassed quality, with a minimum of cost.

This rapid sketch of an afternoon

The Cobourg Figure Skating Club has become an important part of the community during the few years which have elapsed since the formation of the Club. It was just over eight years ago that a few energetic-minded skating fans got together and established the Cobourg Figure Skating Club. During that time the club has grown until it now exerts an effective impact upon community life, while the membership is open to all ages, the emphasis has been, and will continue to be, on the young people.

The value of figure skating in building strong, healthy bodies is a recognized fact. There have been many instances in which physically-handicapped people have developed into normal beings through the exercise obtained from figure skating. Needless to say, figure skating also benefits those who are not physically-handicapped. It improves vision, co-ordination of mind and muscle and provides games and games. It also demonstrates both competitive play and teamwork. For the perfectionist, an sport holds greater incentive.

Those responsible for the progress of the Club have kept in mind that the costs must be kept within the family budget if the Club is to maintain an adequate membership. This has not been easy but the steadfast efforts of the workers have continued to sponsor the Club satisfactorily. However, there must be a continued growth in membership and there must also be sufficient profits from other sales to the annual Skating Carnival if a proper financial balance is to be maintained.

Membership in the Cobourg Figure Skating Club includes three forms of skating instruction --- School Figures, Dancing and Free Skating. Members may skate three times a week and instruction consists of meetings on a figure-eight, either forwards or backwards and in roller skis. Also the beginner starts skating by learning the simple Dutch Water and as proficiency grows, other variations of figure skating and dancing are taught and tests are held twice yearly. Much of the credit for the progress achieved for the Carnival goes to John Redway, Club Professional and the progress made, from the youngest novices to the most accomplished perfectionist, is a tribute to John Redway's unswerving ability as an instructor.

Now you will be proud of them too. Thanks
 to the outside skating club who have
 of some of their outstanding skaters to take
 this program. Special thanks also go to
 writers and to all who have helped
 to the 10th Annual Carnival of Cobourg
 Skating Club.
